PROBLEM STATEMENT

Virtualization of Local Markets

- Transforming traditional markets into digital commerce platforms.
- Aggregating diverse shops into a unified virtual market.

KEY PRINCIPLES

01

Limitless Inventory:
Extensive selection
for physical stores
and virtual dark
stores.

02

Order Aggregation:
Fulfillment from local
shops within the
market.
Faster delivery and
improved customer
satisfaction.

03

SaaS-Based POS
System:
Simplified transaction
and inventory
management.

OBJECTIVES OF GRAND BAZAAR

Modernize traditional markets.

Foster an ecosystem for digital commerce.

Preserve cultural and community significance while embracing technology.
